PROFESSIONAL SUMMARY

ISIPCA Master's candidate with hands-on experience in fragrance development across fine fragrance and personal care. I enjoy transforming creative briefs into fragrances through iterative formulation, olfactive evaluation, and close collaboration with perfumers and cross-functional teams. Combining creativity with technical rigor, I ensure each development aligns with both olfactive intent and regulatory requirements.

EXPERIENCE

Galimard

2024 – Present

Junior Perfumer — Apprenticeship

Paris, France

- Interpreted and executed **fragrance briefs**, translating olfactive direction and consumer positioning into targeted recommendations through autonomous iterative development cycles.
- Conducted **comparative olfactive evaluations** across fragrance families and raw material profiles, maintaining consistent sensory records throughout each submission cycle.
- Reviewed formulas for **IFRA compliance and EU allergen thresholds** from brief interpretation through compliance review and final client presentation.

MD Fragrances

2024

Junior Perfumer — Internship

Grasse, France

- Supported **formula development and reformulation** across fine fragrance, body care, and home applications, liaising with external labs on production requests and sample follow-up.
- Reviewed ingredient lists for **IFRA compliance and EU allergen thresholds**; flagged non-compliant materials and supported reformulation to meet regulatory requirements.
- Conducted physicochemical testing and **olfactive performance evaluations** across multiple bases, recording and reporting results to the formulation team.

Osmothèque

2023 – 2024

Volunteer

Versailles, France

- Assisted in the coordination and running of **fragrance conferences**, supporting event flow and attendee experience.

SELECTED PROJECTS

Fragrance Compliance & Evaluation Strategy | *Regulatory Assessment* | *Allergen Disclosure* | *Product Development*

- Built an evaluation framework assessing **olfactive coherence, stability, and IFRA/allergen compliance** across cosmetic and home fragrance applications.

ISIPCA — MOKU 2025–2026 | *Quality Control & Regulatory Affairs* | *Product Development*

- Managed a **cross-functional team of 3** across regulatory, R&D, and QC poles to align product milestones with compliance requirements and launch readiness.

U'Cosmetics 2025 — Top 30 National Selection | *Fragrance Development* | *Consumer Brief* | *Product Positioning*

- Wrote a **consumer fragrance brief** translating target profile and brand identity into an olfactive direction; project **selected among the Top 30** at a national cosmetics innovation competition.

EDUCATION

ISIPCA

2023 – 2026

Master's Degree — Fragrance Product Creation & Development

Versailles, France

- Focus:** Fragrance Development, Brief Interpretation, Raw Materials, Consumer Insights, Market Trends, Regulatory Compliance |
Analytical: GC-O, GC-MS, GC-FID, HPLC

Université Côte d'Azur

2020 – 2023

Bachelor's Degree in Chemistry — Cosmetics & Fragrance Option

Nice, France

- Focus:** Organic Chemistry, Analytical Chemistry, Physicochemical Analysis, Cosmetic & Fragrance Science

EXPERTISE & INDUSTRY INVOLVEMENT

Fragrance Development : Brief Writing & Interpretation, Olfactive Evaluation, Sample Tracking, Reformulation

Product Development : Lab Coordination, Stability Assessment, Ingredient Review, Regulatory Compliance

Regulatory : IFRA, Allergen Disclosure, CLP/REACH, U.S. FDA/MoCRA

Project & Team Management : Cross-Functional Coordination, Milestone Tracking, Team Supervision

Digital Tools : Microsoft Office, Excel/Google Sheets, Python (basic), AI Tools

Languages : French (Native), English (Professional), Italian (Professional)

INTERESTS

Packaging Design | Fragrance Delivery Technologies | Cultural Exploration | 3D Prototyping
